

HOW THE FUCK DO I SHUCK?

FOLLOW THIS OYSTER KILLING MANIFESTO...

PREPARE TO SLAY

You'll need some gloves, a hand towel, a murder weapon (aka oyster knife), some elbow grease and a dozen of our finest rocks

GRIP & RESTRAIN

After you have wrangled your victim, position it in your palm (cup side down) and squeeze so you have a super tight grip

THE FATAL BLOW

Clutching your weapon, drive the knife into the hinge until you hear deadly snap. Then twist the knife to prise open the lid

OFF WITH THE HEAD

The lid will still be connected to the now deceased oyster so slowly sever the joined adductor muscle away from the lid

DISMEMBER

Angle the knife under the bottom shell to sever the second adductor muscle away from the lifeless cadaver

DEVOUR

Congratulations!! You are now a certified oyster killer but don't stop at just one, commit mass murder!!!
